Elias Josse

About me

I am a social and cooperative person. My main drive comes from opportunities to learn new skills and meet new people. I have a natural urge to promote an environment where everyone is heard and respected. There are always skills to refine and people to engage.

Education

2011-2014 **LBS**
- Architecture and Technology

2017-2020 **Halmstad University**
- Bachelor of computer science and engineering

Work experience

2021-2024 **C++ Developer, Ericsson**
Started as a consultant working with session management part of Ericsson's cloud based 5G product. After 1 year I transitioned to employee status for the same position. During my time, I acted as *designer*, *system tester*, *Scrum master* and *team facilitator* simultaneously for most of my employment.

- Agile
- Git
- Kubernetes
- C++
- Jenkins
